A MESSAGE FROM CORPORATE HEADQUARTERS

Members of the Huntsville Division 10-31 Year Club:

As the Huntsville Division starts its fourth decade at Redstone Arsenal, it is appropriate to honor those employees that have been instrumental in the success of the Division over the years. In particular, we would like to congratulate the three new members who have recently attained 10 years of continuous service with the Company. There are now 377 active employees in this elite group, representing almost 60% of the total employment at the Huntsville Division. We also note the Division now has 156 employees that have 25 or more years of service.

Thiokol's position of leadership in the solid propulsion industry is the result of the loyalty, dedication and experience of every employee in the Company. Our success is made possible by your individual efforts, and Thiokol has the best collection of individual talent to be found anywhere in the world. We in Management appreciate your work and look forward to many more years of successful association.

CONGRATULATIONS!

MEMBERS OF THE HUNTSVILLE 10-35 YEAR CLUB

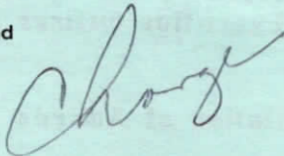

We have had a great year! Our Division is healthy and growing. We have installed a new MK 36 manufacturing facility, we are building a major new minimum smoke production facility, and are nearing completion of a new manufacturing facility for our MK 70 motor. Our business is good.

It is a special pleasure to honor our employees that produce this success. We welcome 26 new employees to this prestigious service club. We especially congratulate also the 184 employees with 25 or more years of service. Thank you for our past progress and for your continuing effort and leadership.

With a new, stronger, corporate structure, Morton Thiokol, Inc., a strong Division -- strong employee leadership -- our future is bright indeed.

## A CHALLENGE -

### Members of Huntsville Division's Service Club

The past year has not been a banner year. Problems prevented achievement of Division goals. We must learn from our experiences and proceed to greater accomplishments. The challenge is to deliver a quality product, improve capability and grow. The opportunity for business growth is available. Our challenge is to posture ourselves to assure growth of the Division.

The Service Recognition Banquet honors employees who have been responsible for past Division successes. Service Club members can take pride in Division accomplishments which have contributed significantly to the country's well-being. The challenge is to not rest on our laurels, but to improve upon past successes and grow. A bright future for the Huntsville Division is in our hands. We must accept and meet the challenge!

## *A Year of Achievement-*

---

### **Members of Huntsville Division's Service Club:**

The past year was one of achievement at the Huntsville Division. Successes achieved previously were built upon and we can be proud of our accomplishments. Records were achieved in the number of motors delivered, backlog was at a record high and customer confidence in us and our systems was restored. Our operating efficiency continues to improve and the foundation for future growth has been laid. Growth opportunities are available; business projections are positive and indicate a promising future.

People, dedicated people, are responsible. The successes achieved by the Huntsville Division are due to the hard work and dedicated service of you who are members of the Service Club. Future growth and accomplishment is in the hands of an outstanding group of people. Continued success at the Division is assured.

**A Message from the General Manager -**

**Employees of the Service Recognition Club**

We have had a record year in sales, profit and motors delivered. We have demonstrated our ability to produce high quality, minimum smoke propellant motors. In the near future, we will initiate operations in new facilities provided by the Army's Modernization Program. In conjunction with the new facilities, we are upgrading our production capacity for Class 1.3 composite propellant motors. Once again, we are initiating production of Castor motors for Expendable Launch Vehicle propulsion.

Our next year looks even better than the previous year.

It is a pleasure to honor our personnel that have performed so well in support of the Division. Also, I would like to welcome a new member to the Service Club. We have a strong corporation, strong division, and strong leadership. Our future is unfurling -- it is up to us to keep it bright!

1948-1988

**Employees of the Service Recognition Club:**

We are about to end a calendar year which spans the end of one fiscal year and the beginning of another. The past fiscal year was a record one, and our present fiscal year is expected to also be very successful.

We owe our successes of the past to an outstanding work force -- people who are loyal, hardworking, and determined that our company succeed. You are those people because you have recognized the challenges and stepped forward to meet them.

The challenges for the future will be different, but an outstanding work force will recognize this quickly and react accordingly.

May your accomplishments and contributions of the past become the stimulus for a renewed commitment to the future. Together, let us define and implement the changes necessary to sustain a continued growth and prosperity.

## **A TIME FOR POSITIVE THINKING**

*As we approach the end of a challenging year, it is time to reflect on our past successes and to look expectantly to the future. Because of the loyalty and dedication of you, our retirees and our active, experienced work force, we have continued to add to our already impressive list of solid propellant rocketry accomplishments. OPERATION DESERT STORM helped us to see quite clearly how much we contribute directly to the defense of our service men and women in the field. Through innovative and persistent pursuit of continuous improvement ideas, we are dramatically reducing our cost of doing business. Those of us who are currently active in the operation of the Division must continue to build on these successes.*

*Our customers, too, are facing the same challenge of competing for fewer opportunities. Now is the time to show them where the best buy for their money is -- at Tbiokoh/Huntsville, where the dedicated professionals work.*

Annual  
Service Recognition  
Banquet

November 13, 1992  
Thiokol Corporation

## *A TIME FOR POSITIVE THINKING*

*As we pause to recognize those who have served the Company so well, I am reminded that without your contributions, our Company would never have progressed to the levels that have been achieved. Many of us are amazed at the changes which have taken place over the years, and all of us have been part of that change process.*

*Change is often difficult and sometimes laced with trial, tribulation and disruption. But without change, there is no progress.*

*We must rely on the wisdom developed in the past to guide the changes we make in the future. To that end, we all still have an important job to do.*

A handwritten signature in cursive script, appearing to read "C. G. Wiggins". The signature is written in dark ink and is positioned below a horizontal line that spans the width of the signature area.
