Lee Builders, Inc.

One of Huntsville's Premier General Contractors specializing in Commercial and Light Industrial Buildings and Up-Scale Custom Homes and Remodeling

For more than 20 years, Lee Builders has exceeded clients' expectations with highest-quality general contracting services for commercial and light industrial buildings, and custom homes.

Lee Builders (LBI) was incorporated in 1984 when C.C. 'Jack' Lee joined forces with two of his sons, Jeff and Bruce Lee, in the construction business. Jeff and Bruce owned their own individual construction companies, while Jack was a Vice President of Thiokol Corporation, and General Manager of the Huntsville Division. In 1987, Bobby Lee graduated in

City of Huntsville

Chamber of Commerce

American Buildings Co

Associated Builders & Contractors

HMC Builders Association

Alabama Building Commission

Associated General Contractors

Mechanical Engineering from UAH, and became the forth partner at Lee Builders. In the 1990s, LBI expanded to include larger, multi-million dollar projects for schools, churches, offices, banks, government facilities, laboratories and custom homes.

Recently, Joe Lee, General Manager of Lee Builders, returned to Huntsville to participate in the business. Joe worked for more than 30 years at Scimetrics, Inc. a Houston, TX based company, as General Manager and Vice President. Joe stated that, "Lee Builders is a good-sized, local corporation that the Huntsville community identifies as a builder with integrity and a commitment to quality. I am excited to have come home to this growing and progressive business and community."

LBI offers clients a variety of contracting options, from a fixed price contract arrived at by open bid or negotiation, design-build, cost-plus, and build-to-lease. This flexibility has led to the company working on many interesting community projects and landmarks. Some recent projects that Lee Builders has completed include:

- The Century BMW Dealership
- Parkway Place Mall tenant build-outs
- Hampton Cove Middle School
- Hazel Green Baptist Church
- Good Shepherd Catholic Church
- SouthTrust/Wachovia Banks throughout Madison County
- New homes in Stone Mark, Madison and Hampton Cove
- Renovations in the historical district
- Many other projects throughout Huntsville, North Alabama and South Tennessee

LBI has also been busy on Redstone Arsenal. Over the years, they have built or remodeled over 25 facilities on Redstone Arsenal, such as offices, light industrial buildings, and test labs. Much of their Arsenal work has been done for NASA, but their client list also includes the Corps of Engineers, the Army, and other agencies.

In recognition of their work, Lee Builders was awarded the Associated Builders and Contractors 'Award of Excellence in 2004' in the \$2 - \$5 million category for the Huntsville Office and Transfer Station. LBI has also won several first place awards in the Huntsville Parade of Homes.

Lee Builders is a conservative, well-managed company that is highly respected as a value-added partner. LBI places great emphasis on assisting and supporting their clients early in the planning process. With the client and architect, LBI is actively involved at the beginning of the project as design-build/value engineering consultants. The insight they bring into this process enhances the design, promotes cost containment and provides a more accurate completion date.
